

# SET-UP INSTRUCTIONS VISUAL XPO

1 - Open the feet

2 - Choose the long or short leg according to whether the graphic is vertical or horizontal

3 - Stand the tripod on the ground and fix one of the arms.

4 - Fix the second arm. The structure is ready to receive the graphic.

5 - Position the grommets of the graphic on the top studs and stretch out the image in order to position the bottom grommets.
